Subject

Attention is respectfully invited to orders flagged A & B in the file about the erection of the High School section of the Maharaja's College in the Jagan Mohan Palace. The instructions to the Chief Engr are that the necessary improvements & alterations will have to be carried out and the building handed over to the Edn. Deptt. before the end of May. The J. C. of Edn & the Chief Engr have, no doubt, been held responsible for attending to this work. A reminding enquiry from this office is nevertheless not superfluous. Hence a draft is submitted

M E M O

The plan of the Marriage Pavilion attached to the Jaganmohan Palace showing the alterations required for fitting it up for the use of the High School is ~~enclosed~~ herewith Submitted for reference. It is proposed to utilize the large central Hall for practical classes for Physics, Chemistry and -- Mathematics for which it can eminently be suited by dividing it into 6 compartments by means of thin mud walls.

The ground floor of the side wings is allotted for class rooms and subsidiary rooms located alternately so as to secure noiseless lecture rooms. This does away with the only objection to locating the school in the Pavilion.

Also for purposes of light and ventilation the curved arched openings in the exterior walls only are left open, the seats being arranged so that the boys get the light from their left-hand side, while the openings in the main wall of the Hall are completely blocked up so as to prevent all propogation of sound into the Central Hall.

The top story over the wings is reserved for classes where very few students congregate, such as, Sanscrit, Telugu etc., thus also minimizing the noise that may filter through the thin boarded floor.

Thus all the classes except the Balance-room can be located in the main Pavilion, and for this room where delicate scientific instruments will be placed, an enclosed room free from dust, is required, It is therefore proposed to utilize the room in the main building now used as --

as Office room of the Haramuth Engineer.

Also for Chemical Experiments of inflammatory character which are shown for demonstration purposes the Pavilion with an old cloth ceiling is considered to be unsafe and it may be necessary to take up the Hall where the Haramuth Office clerks are now working, thus in addition to the Marriage Pavilion the portion occupied by the whole of the Haramuth Office is also required.

The latrines adjoining the Haramuth office will be required for the use of the boys and it is also proppsed to extend these by temporary sheds with good sanitary floor and necessary sewage connections. Permission may kindly be accorded to utilize the Gas Plant for Laboratory purposes.

Finally, a compound wall with railing will be erected between the pavilion and the main road on the North so that the school will have the exclusive use of the North Gateway and will also be entirely isolated from the other portion of the Palace and its grounds.

The estimate for all these items amounts to nearly Rs.4,500/- and will be submitted to the Chief Engineer for formal sanction after consulting with the Head Master who is absent at Bangalore.

In case it is finally decided that this Pavilion is to be filled up for the location of the High School temporarily, the building may kindly be handed over to me at once and permission kindly accorded to put the works in hand in anticipation of formal sanction.

Urgent

Proceedings of the Government of His Highness the Maharaja of Mysore.

*****

Order No. 6702-5/Ed 90-15-704.

Dated Bangalore 15th May 1916.

In connection with the preparations for starting work under the new University from 1st July next, it has become necessary to remove the High School classes from the Maharaja's College in Mysore. Government are pleased to direct that the Jagan Moham Paval ion which has been graciously placed at the disposal of Government by His Highness the Maharaja may be utilised temporarily for locating the High School classes referred to above, pending the construction of a new building.

2. The Chief Engineer, in consultation with the Inspector General of Education, is requested to make the necessary alterations in the Pavil ion to accommodate the several classes and generally to adapt the structure to the requirements of the High School. A separate entrance to the school should be provided on the northern side of the Pavil ion and the compound on the eastern side of it should be railed off or separated by a low wall. Latrines should be built on the northern side and should be decently screened from publ ic view. An expenditure not exceeding Rs.5,000 may be incurred for

carrying out the improvements and alterations necessary. The works should be completed and the Pavilion made over to the Education Department before the end of this month.

3. The Chief Engineer is requested to submit a report to Government by the 15th of June 1916 that due effect has been given to this order.

This may issue today
if Mr Ranjmundayya
agrees (

His Highness the Maharaja of Mysore,
Departments of Education & Agriculture,
BANGALORE.

SIR,

With reference to your letter No.7103/Edn.90-15 dated the 31st ultimo requesting to be informed whether necessary improvements and alterations in the Jagan Mohan Pavilion have been carried out and whether the building is ready for being taken over by the Education Department, I have the honour to forward herewith copy of letter No.5264 dated the 30th ultimo together with its enclosure, from the Chief Engineer of Mysore stating that every attempt will be made to complete the work within the time allowed.

I have the honour to be,

Sir,

Your most obedient servant,

M. Shama Rao.

Inspector General.

TNR.

21 r

Letter No.5264 dated 30th May 1916 from the Chief Engineer of Mysore to the Inspector General of Education in Mysore.

With reference to your letter No.23808/506 dated the 23rd May 1916 regarding the alterations to be effected in the Jagan Mohan Pavilion for locating the High School classes of the Maharaja's College at Mysore, I have the honour to forward herewith for your information a copy of letter No.5243/E.VI-14 N. of the 27th instant received from the Superintending Engineer, Southern Circle, reporting that an attempt will be made to complete the work within the time allowed. But it is doubtful whether the plastered mud walls will get sufficiently dry by the 15th prox.

2. The Chief Engineer who inspected the Pavilion during his recent visit to Mysore, has issued instructions to push on with the work.

Yes.

Inspector General.

TNR.

Letter No.5243/E.VI-14 N. dated the 27th May 1916 from the Superintending Engineer, Southern Circle, to the Chief Engineer of Mysore.

Adverting to correspondence ending with your No.5053 dated the 26th May 1916, I have the honour to inform you that an estimate amounting to Rs.5,000 for making the necessary alterations required for the Jagan Mohan Pavilion, for locating the High School classes of the Maharaja's College, Mysore, has been received from the Assistant Engineer, Head Quarters Range, Mysore, and the same will be submitted to you in a day or two.

2. I further beg to state that the Assistant Engineer reports that the work has been put in hand and that all attempts will be made to complete the works in the shortest possible period. But as there is a large quantity of plastered mud wall to be done and as this being the rainy season, it may take some time to dry, the building may not be fit for occupation before the end of June 1916. However, every attempt will be made to complete the work within that period.
